Residential Provider Quality Report

Providers in the Community Mental Health for Central Michigan Provider Network undergo an on-site review process on an annual basis. Every residential provider receives either a full site review or an on-site Recipient Rights monitor. The data in this table represents all CMHCM residential providers that received a full site review in FY 16-17. The purpose of the site review is to evaluate each provider's achievement toward agency standards, and when indicated require corrective action. Results of the site review are being made available for review by individuals, families, advocates and the general public. The report below provides a summary of results by provider of the areas reviewed during the period from October 1, 2016 through September 30, 2017.
